Sonya BeyondBeautiful Murphy Absolutely loved this dish. Everyone enjoyed it, from my picky kids to my hubby. Served mine with mashed potatoes and Caesar salad. Will definitely keep this recipe for the future. Will be leftovers for tonight with roasted potatoes and sautéed green beans.

CUSTOM HAMMERED METAL JEWELRY

99 0 4 0

Hammered metal jewelry is a craft that looks expensive, is easy to do, and requires only a few tools and wire to make.

Use our template to make a heart or spell out 'love' in cursive by bending silver plated wire with jewelry pliers. Want something more personalized? Choose a font and print out any name or word you'd like—it's all up to you!

Custom jewelry always makes a great gift so plan to make several pieces at a time. Besides, swinging a hammer (even if it's done gently) can be pretty satisfying to let off some steam if your day hasn't gone exactly as planned!

PEANUT BUTTER COOKIE BITES

prep time 45 mins cook time 10 mins total time 55 mins makes 2 dozen

It may look like there is a lot of prep time involved in making peanut butter cookie bites, but most of it is spent waiting for the bites to set in the fridge.

When you go to make the chocolate, don't skimp on just any melting chocolate or the dipping becomes temperamental. The Ghirardelli chocolate is worth the extra 50 cents!

WHAT YOU'LL NEED

- 2 1/2 cups crushed peanut butter cookies (approximately 1 pkg)
- 8 oz

Product Here

LET'S DO IT

1. Place cookies into the bowl of a food processor and pulse until it is the consistency of graham cracker crumbs. Add cream cheese, vanilla, and salt then pulse until the mixture has formed a ball into one side of the bowl. Set in the freezer for 5-10 minutes

ECO-FRIENDLY SUGAR SPRAY PAINT

Sponsored by:

We've tested a lot of spray paint here in the ChenStyle office. Before we discovered SUGAR spray paint, we struggled to find a product that provided professional coverage without the smelly, intense vapors.

SUGAR is a healthier spray paint because there are no solvents, no mix of water and alcohol that's made from harvested sugar cane, which all translates to a much healthier product.

Plus, the low-smell formula means we can spray paint without having to leave the room and not fume-out our coworkers! (But we always recommend wearing a mask.)

Even though it's a safer alternative than other brands, the coverage is perfect and the pigments are UV-resistant. The finish is a matte finish. Colors are vibrant.

The can's aerosol technology is designed to produce a smooth, even finish. You have total control over the color application. With SUGAR, you get nothing but crisp, clean lines.

Currently, SUGAR spray paint comes in 44 shades—from vanilla white to a bright yellow called 'banana split' and everything in between.

STENCILED PAISLEY SHOWER CURTAIN

Sponsor
Logo
Here

Add personal flair to your bathroom décor with our stenciled paisley shower curtain DIY. All you need is a plain curtain, a few sponges and paper plates, and Tulip For Your Home supplies.

The Tulip Stencil Spray Adhesive is really your secret weapon in this craft. It'll make the process so much easier! The adhesive applies a secure hold to your fabric, but you can still easily lift and reposition the stencil as you paint. It'll make your final design look neat and professional.

The ombre effect that you see is the result of mixing and matching 3 different Tulip fabric paints—Azure, Blueberry and White.

One of the reasons why we love using Tulip products is because their paint colors are so easy to mix together for fresh shades. You can even water them down a bit to create more of a watercolor look.

Tulip paints are also a fave because colors won't crack or crumble once they're dry. They're permanent and machine washable...super convenient!
